

## Here's What Our Customers Have to Say

*"The team is friendly, courteous and professional. The valet service is the envy of all friends and family who witness how easy it is."* - Brian & Kathy

*"Thanks Aqua for a great service. Professional and friendly on all fronts. You've allowed us to spend so many extra hours on the water with family and friends. All our visitors are blown away by the rock star service."* - Al

*"The staff are second to none. We are not just their customers, they have made us their friends. That's as good as it gets."*  
- The Lacroix Family

## 5 Advantages to Using Dry Boat Storage

Dry storage is better for maintaining the longevity of your boat. Here are 5 reasons people prefer storing their boats on dry land:

1. No algae growth on the hull.
2. No wear on the drive. Rocking in the water can wear out the gimbal pin over time.
3. The drives and props are safe from corrosion.
4. Fewer environmental issues, as it prevents gas & oil from the drive from dissipating into the water.
5. No concerns with boat damage during storms.

## Aqua Boat Club's Valet Service Makes Boating Simple

Here's how it works:

1. Using the BoatCloud app on your mobile device or computer, book your launch time.
2. We'll untarp your boat and take it to the loading station. When you arrive, we will valet your vehicle, you hop in, and we launch you into the water with one of our motorized boat trailers.
3. Call when you're finished and we'll pick you up at the water, bring you to the loading station, retarp your boat, and put it back in storage.
